

Critical Care Outreach Activity Data

April 2020 – July 2020

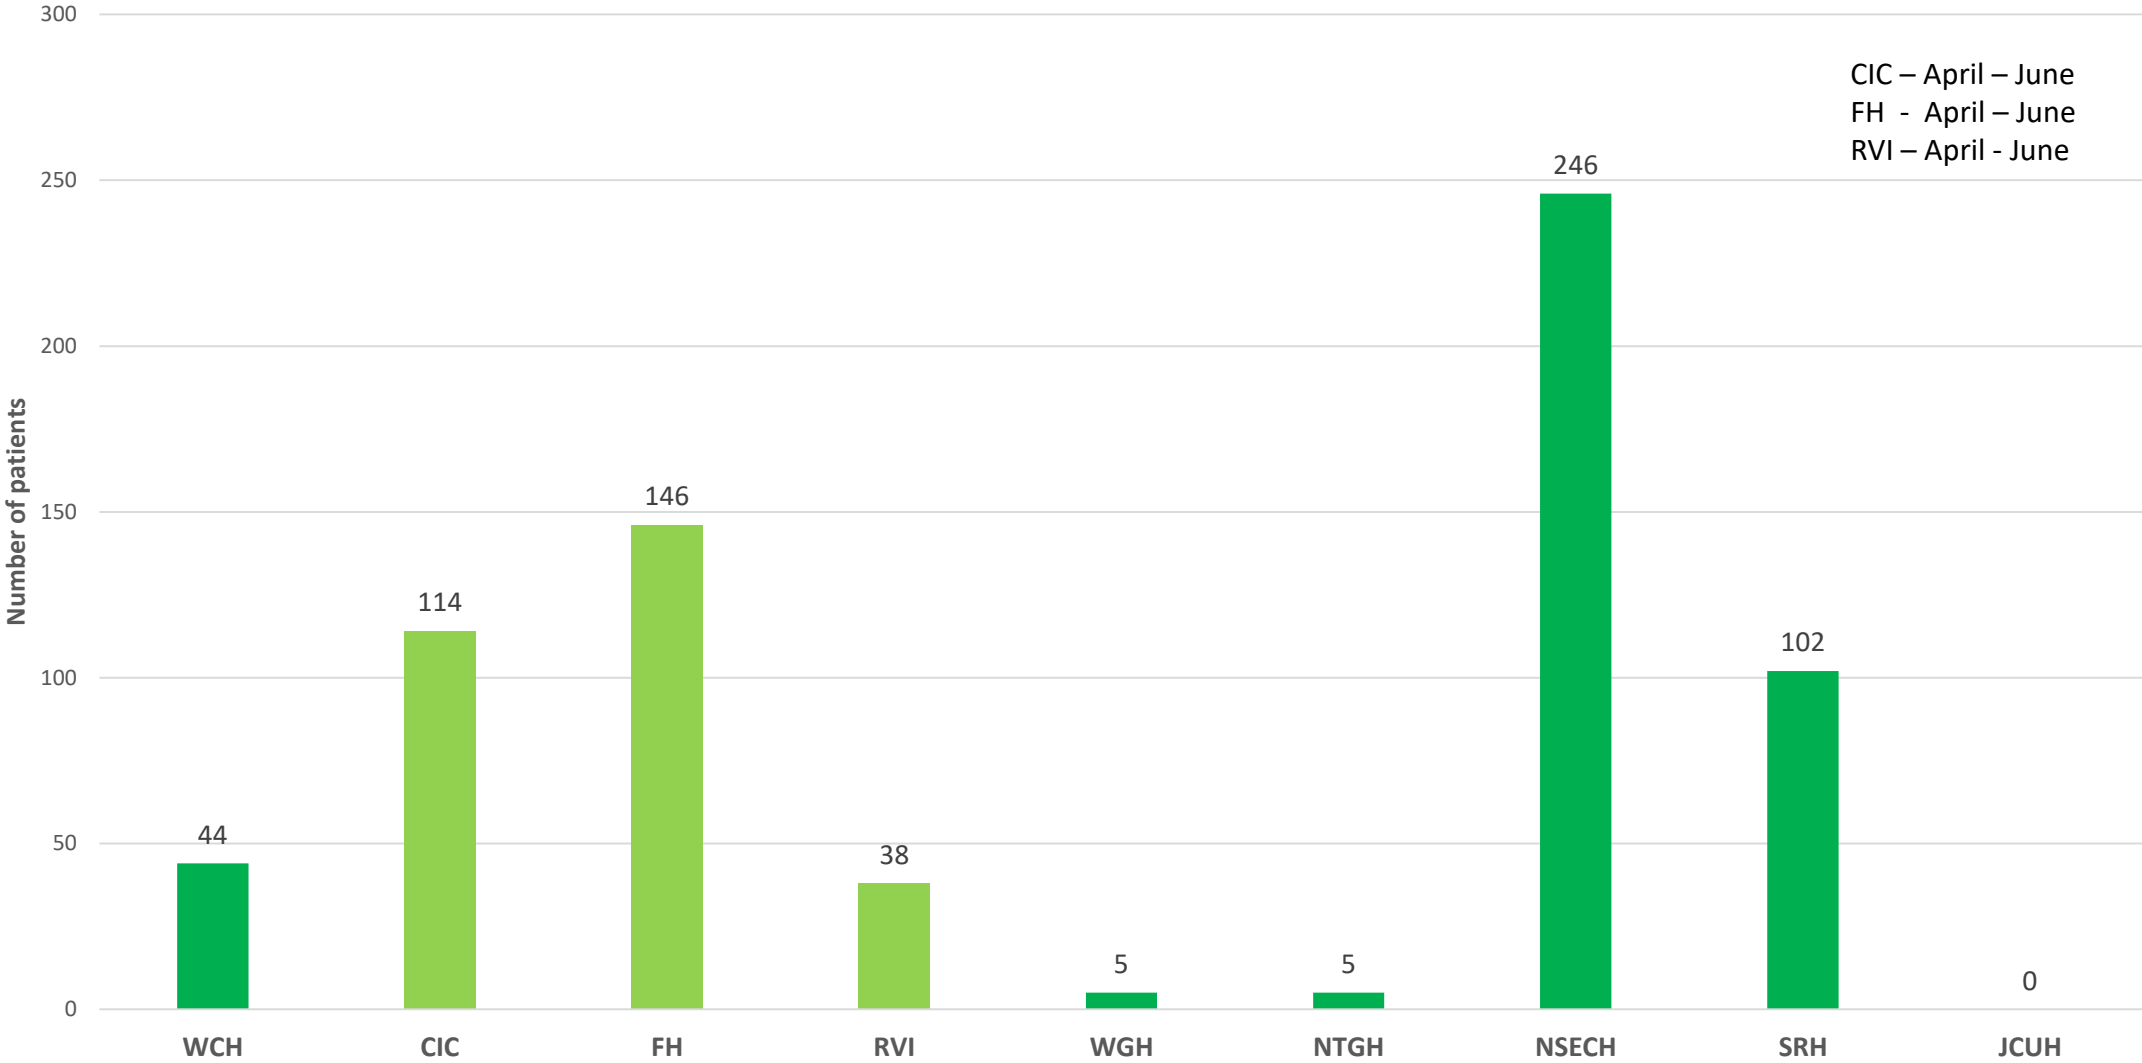

Participation

- 9 Hospitals returning data (4 nil returns)
- No data from:
 - STDH – Critical Care outreach pulled to staff other areas during Covid -19
 - QE
 - CDDFT – UHND & DMH
 - NTH

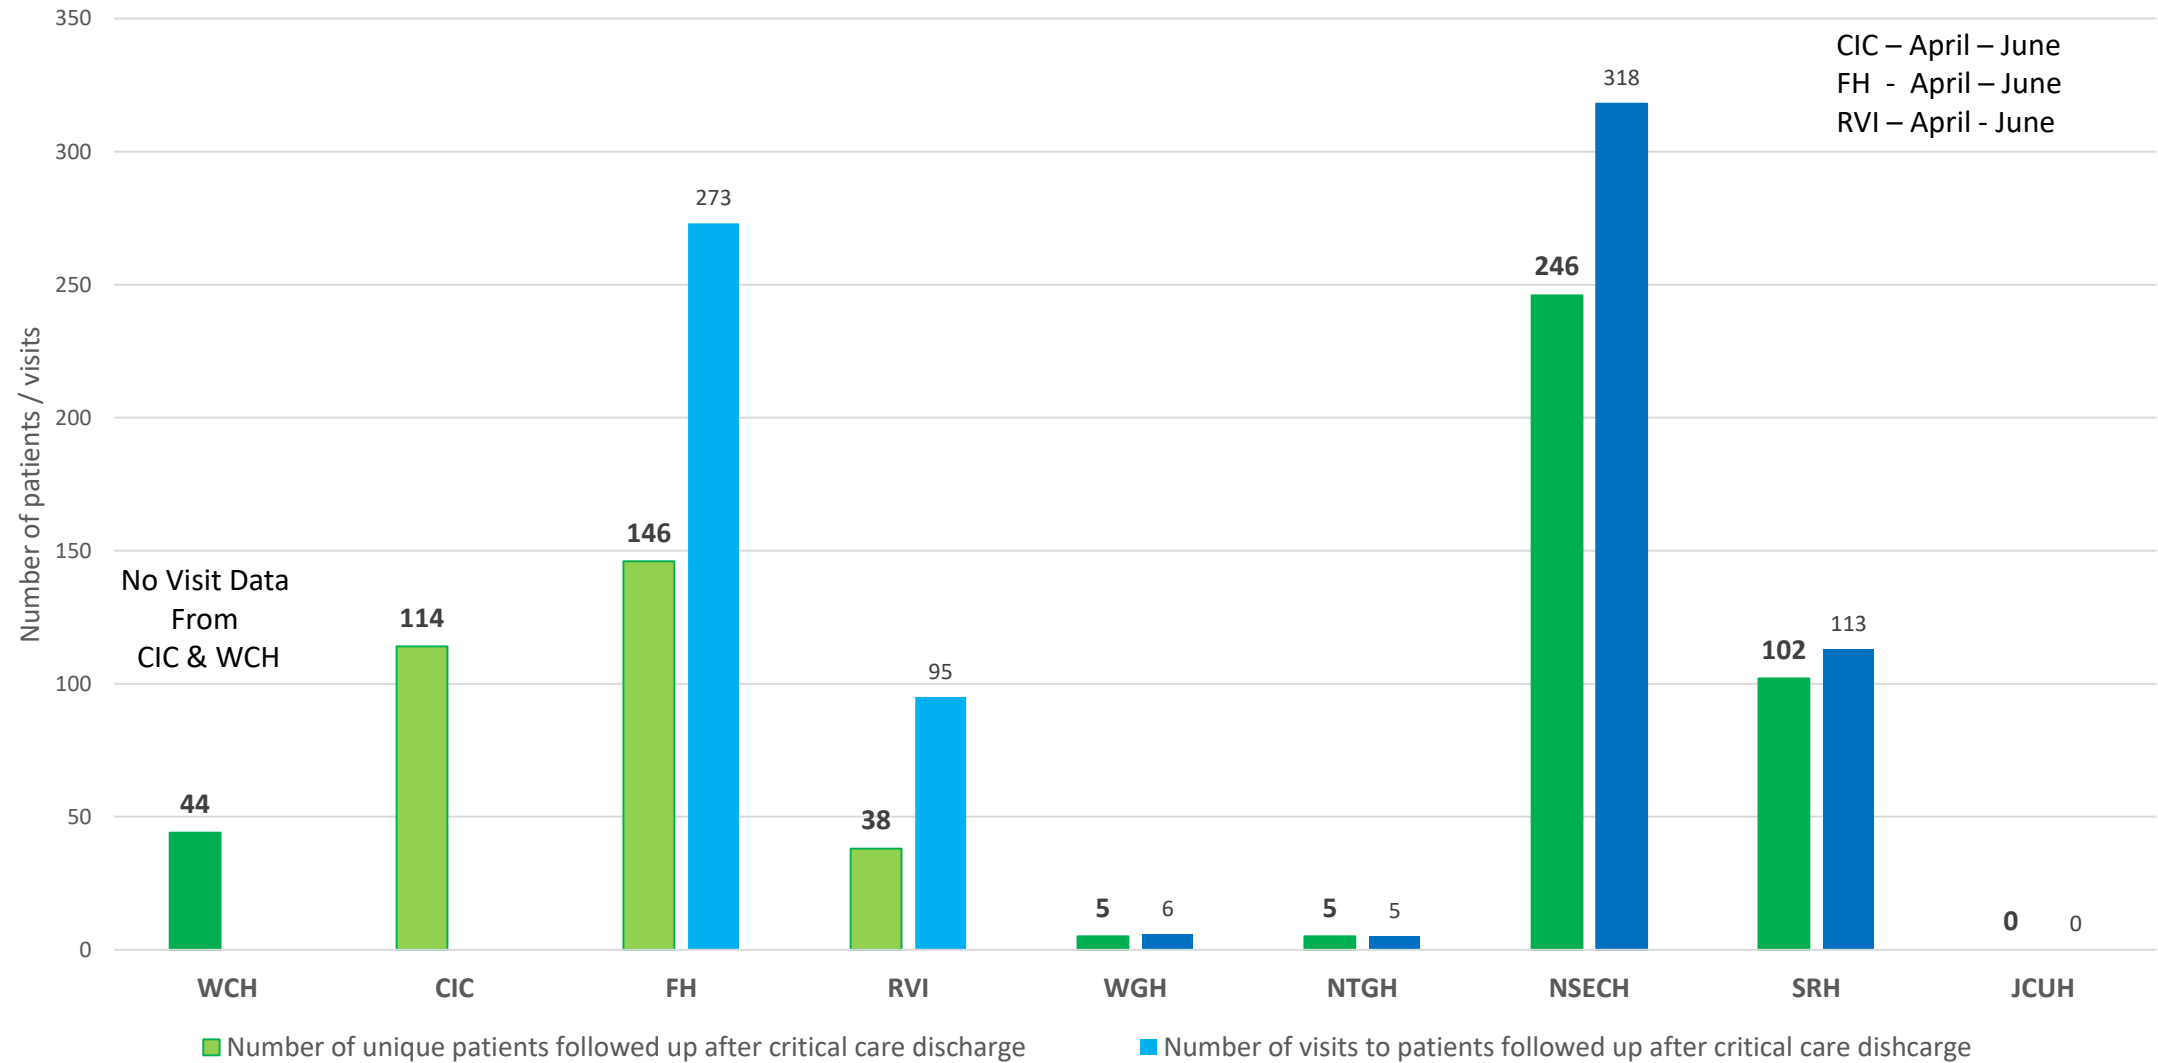

Number of unique patients followed up after critical care discharge

April 2020 – July 2020 Q1

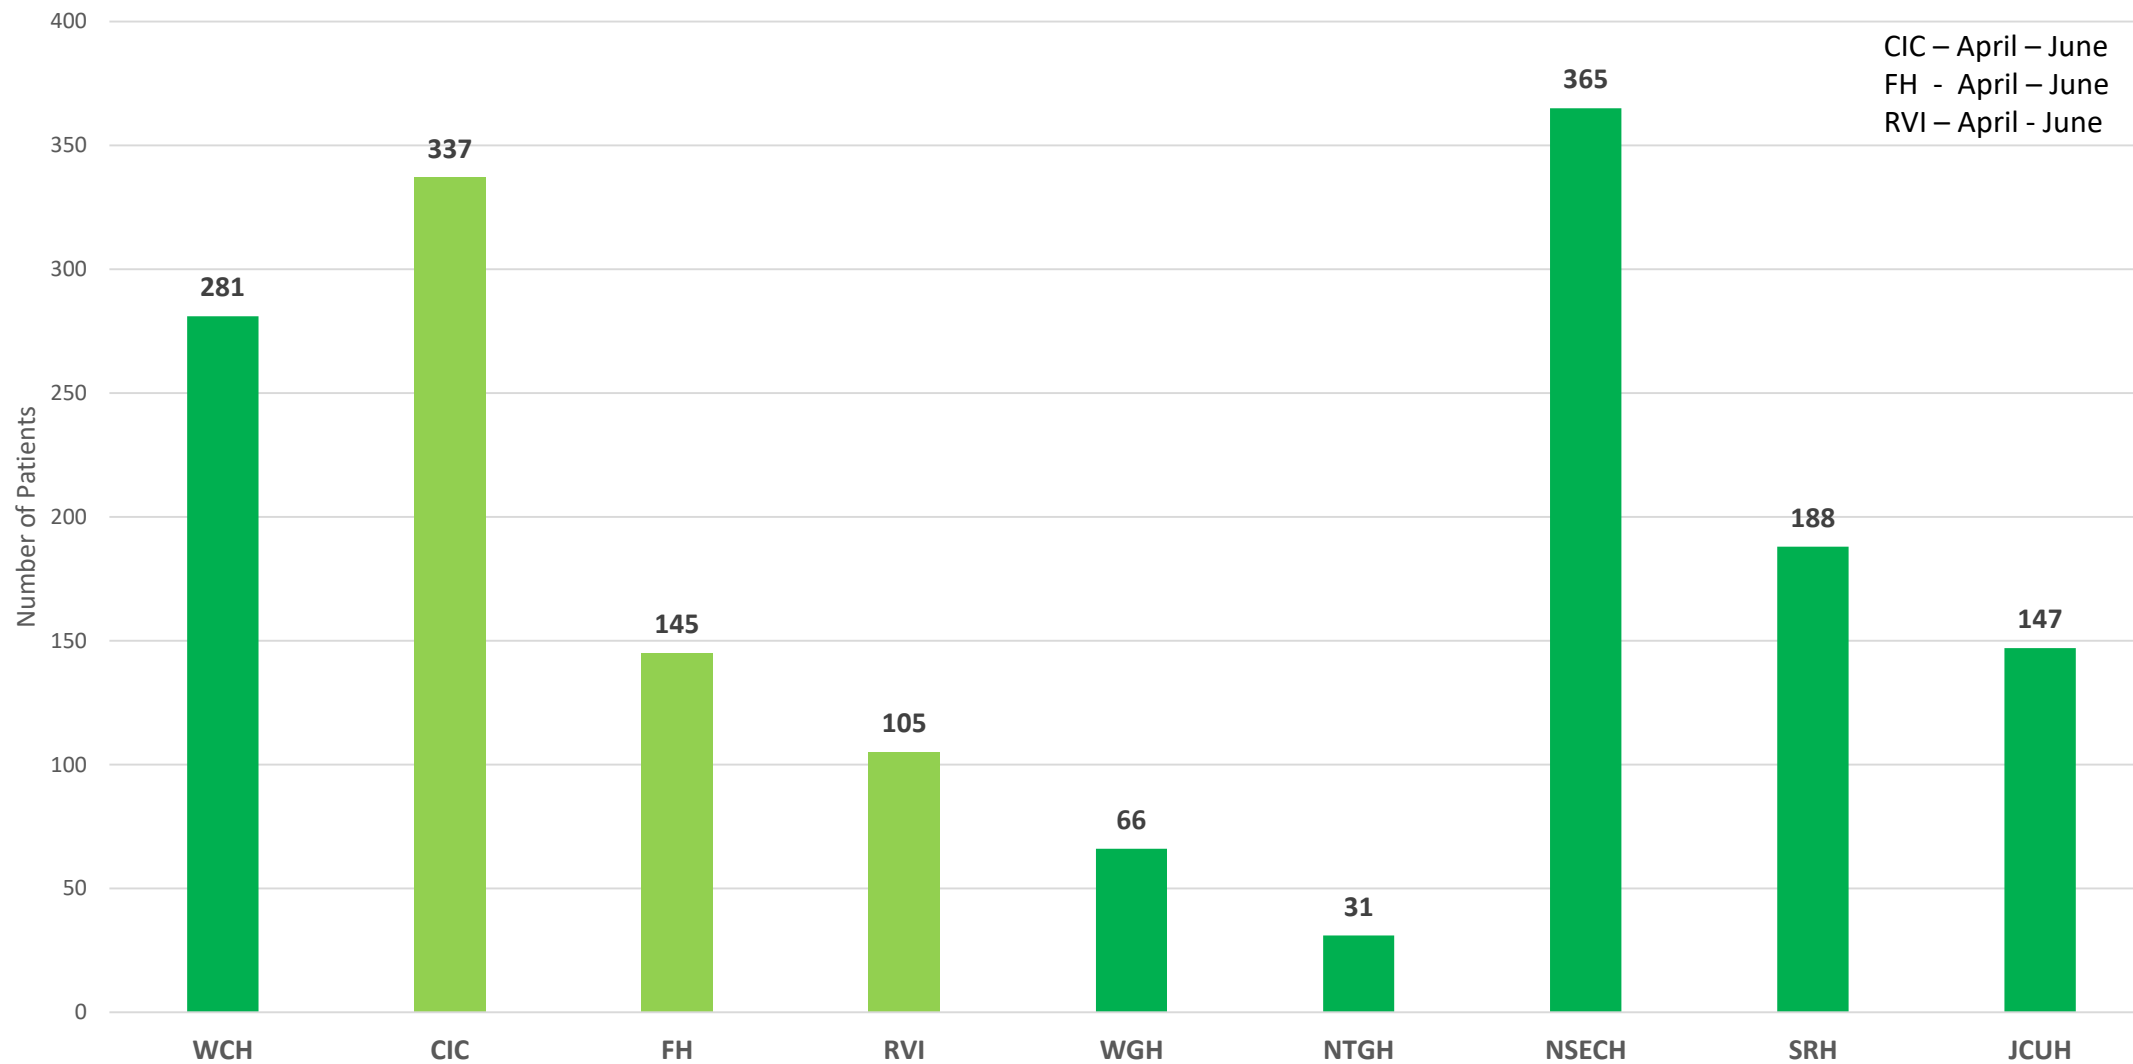

Number of visits compared to number of patients discharged from Critical Care

April 2020 – July 2020 Q1

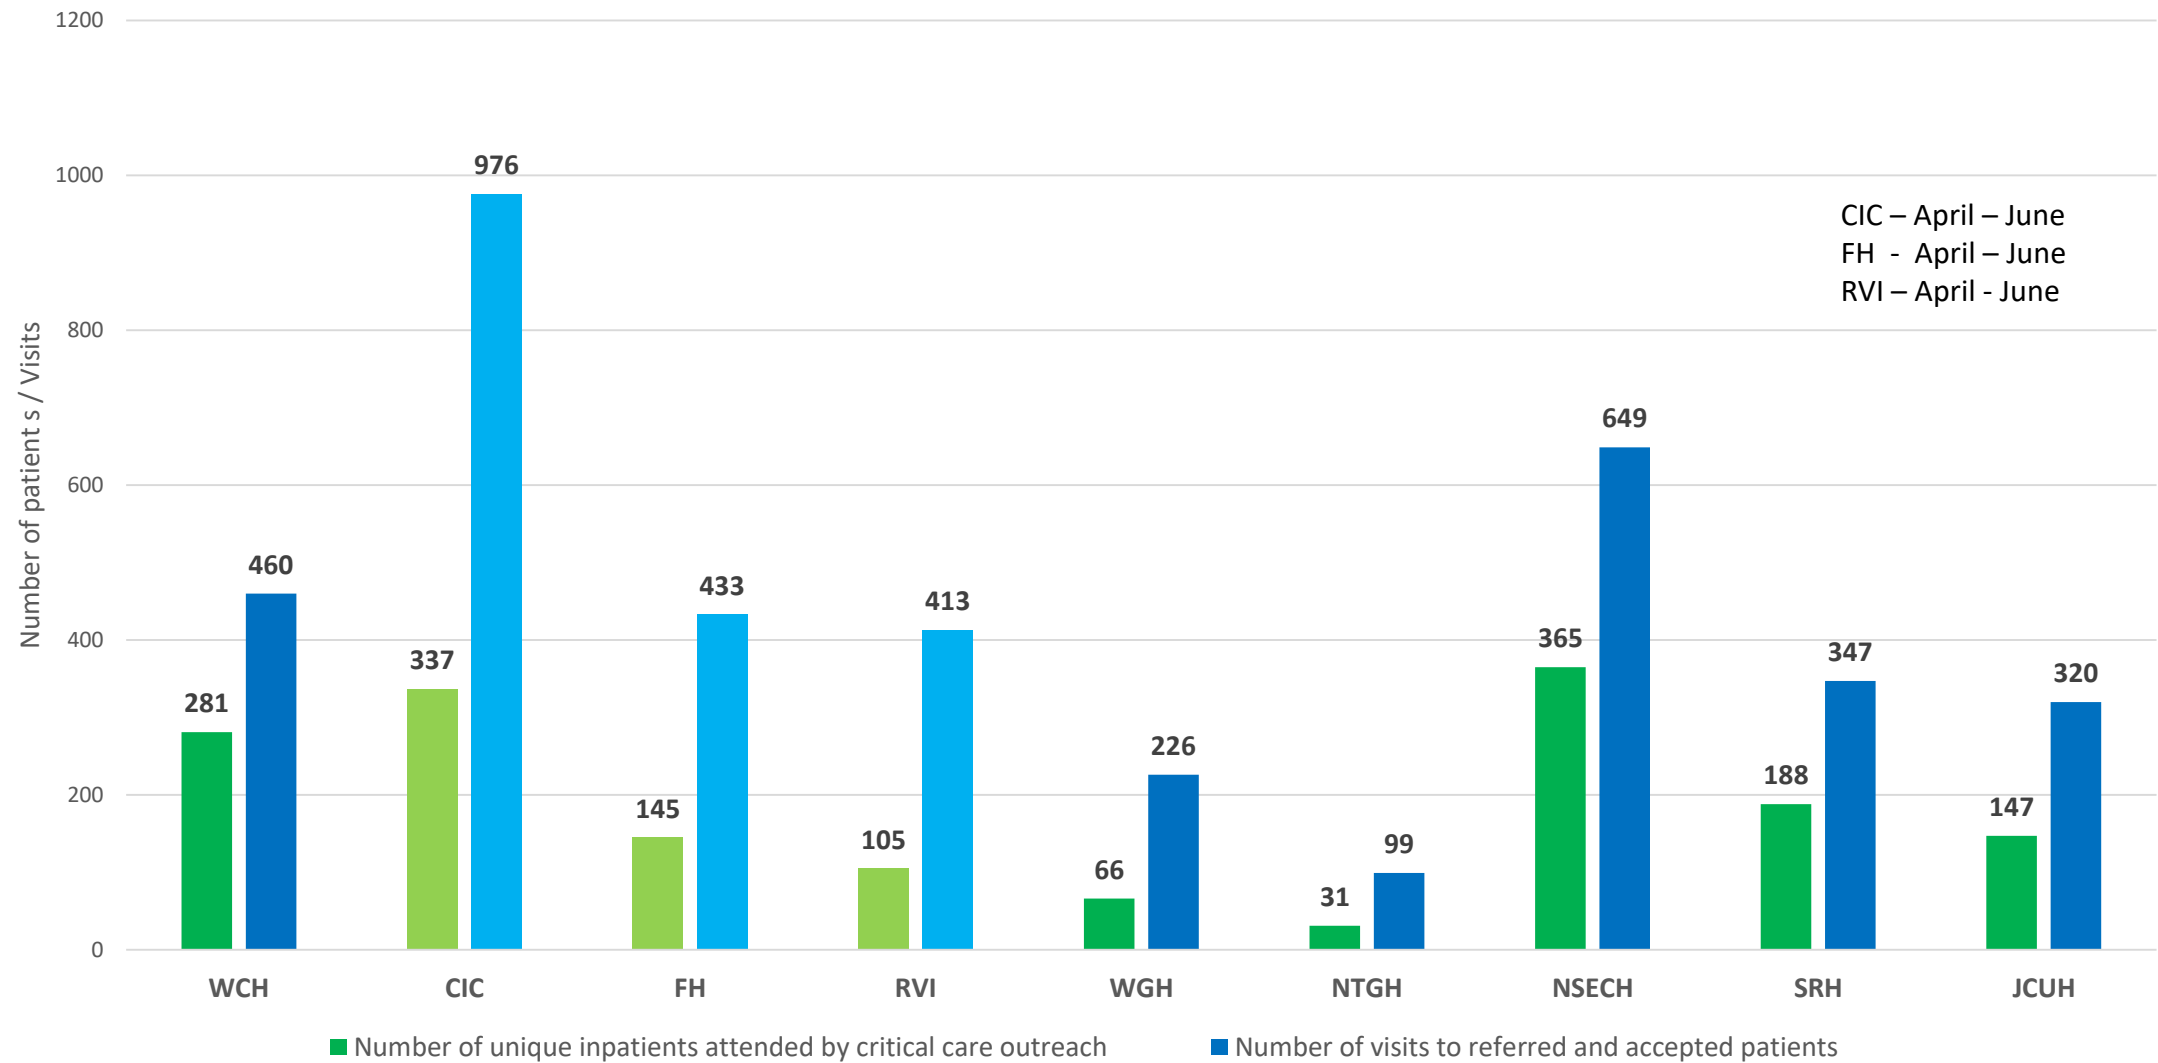

Number of unique inpatients referred and seen by critical care outreach April 2020 – July 2020 Q1

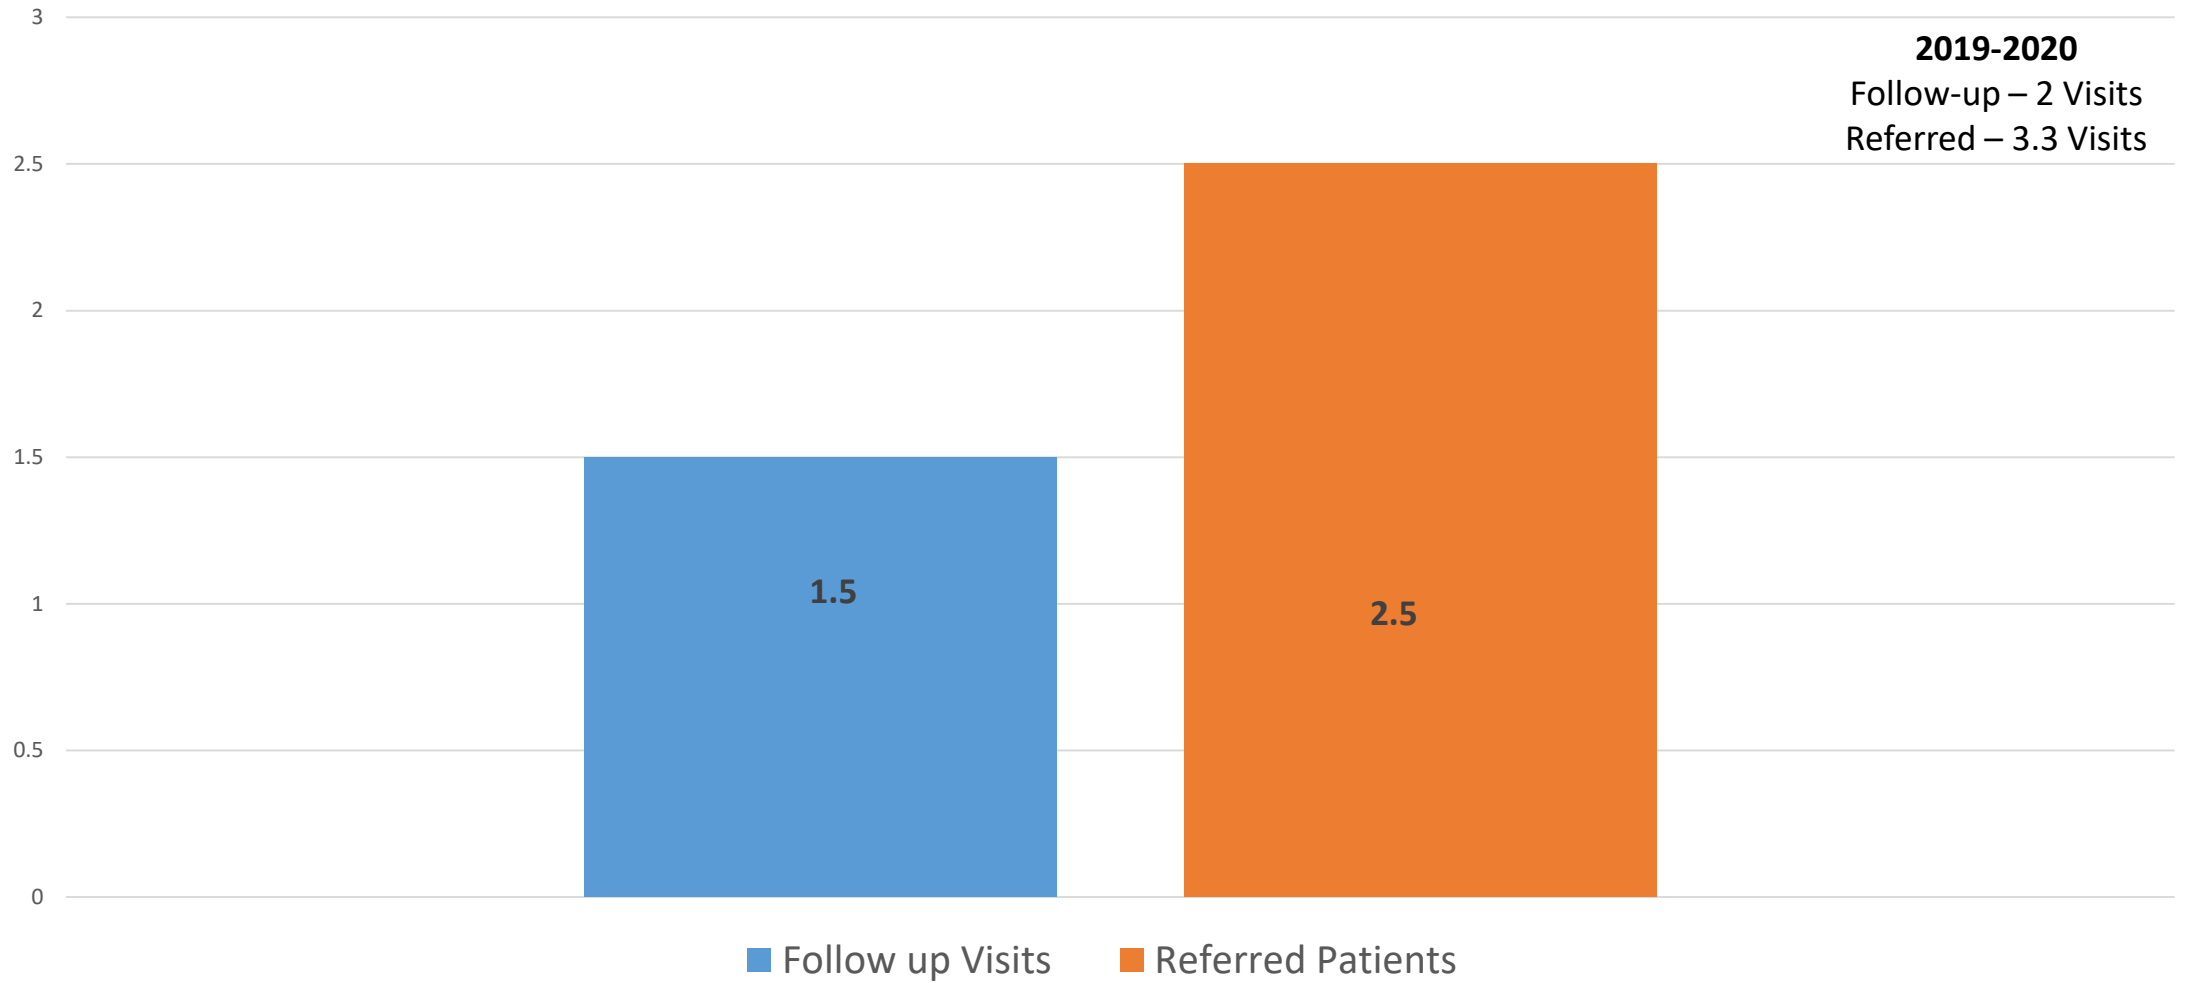

Number of visits to patients referred to Critical Care Outreach

April 2020 – July 2020 Q1

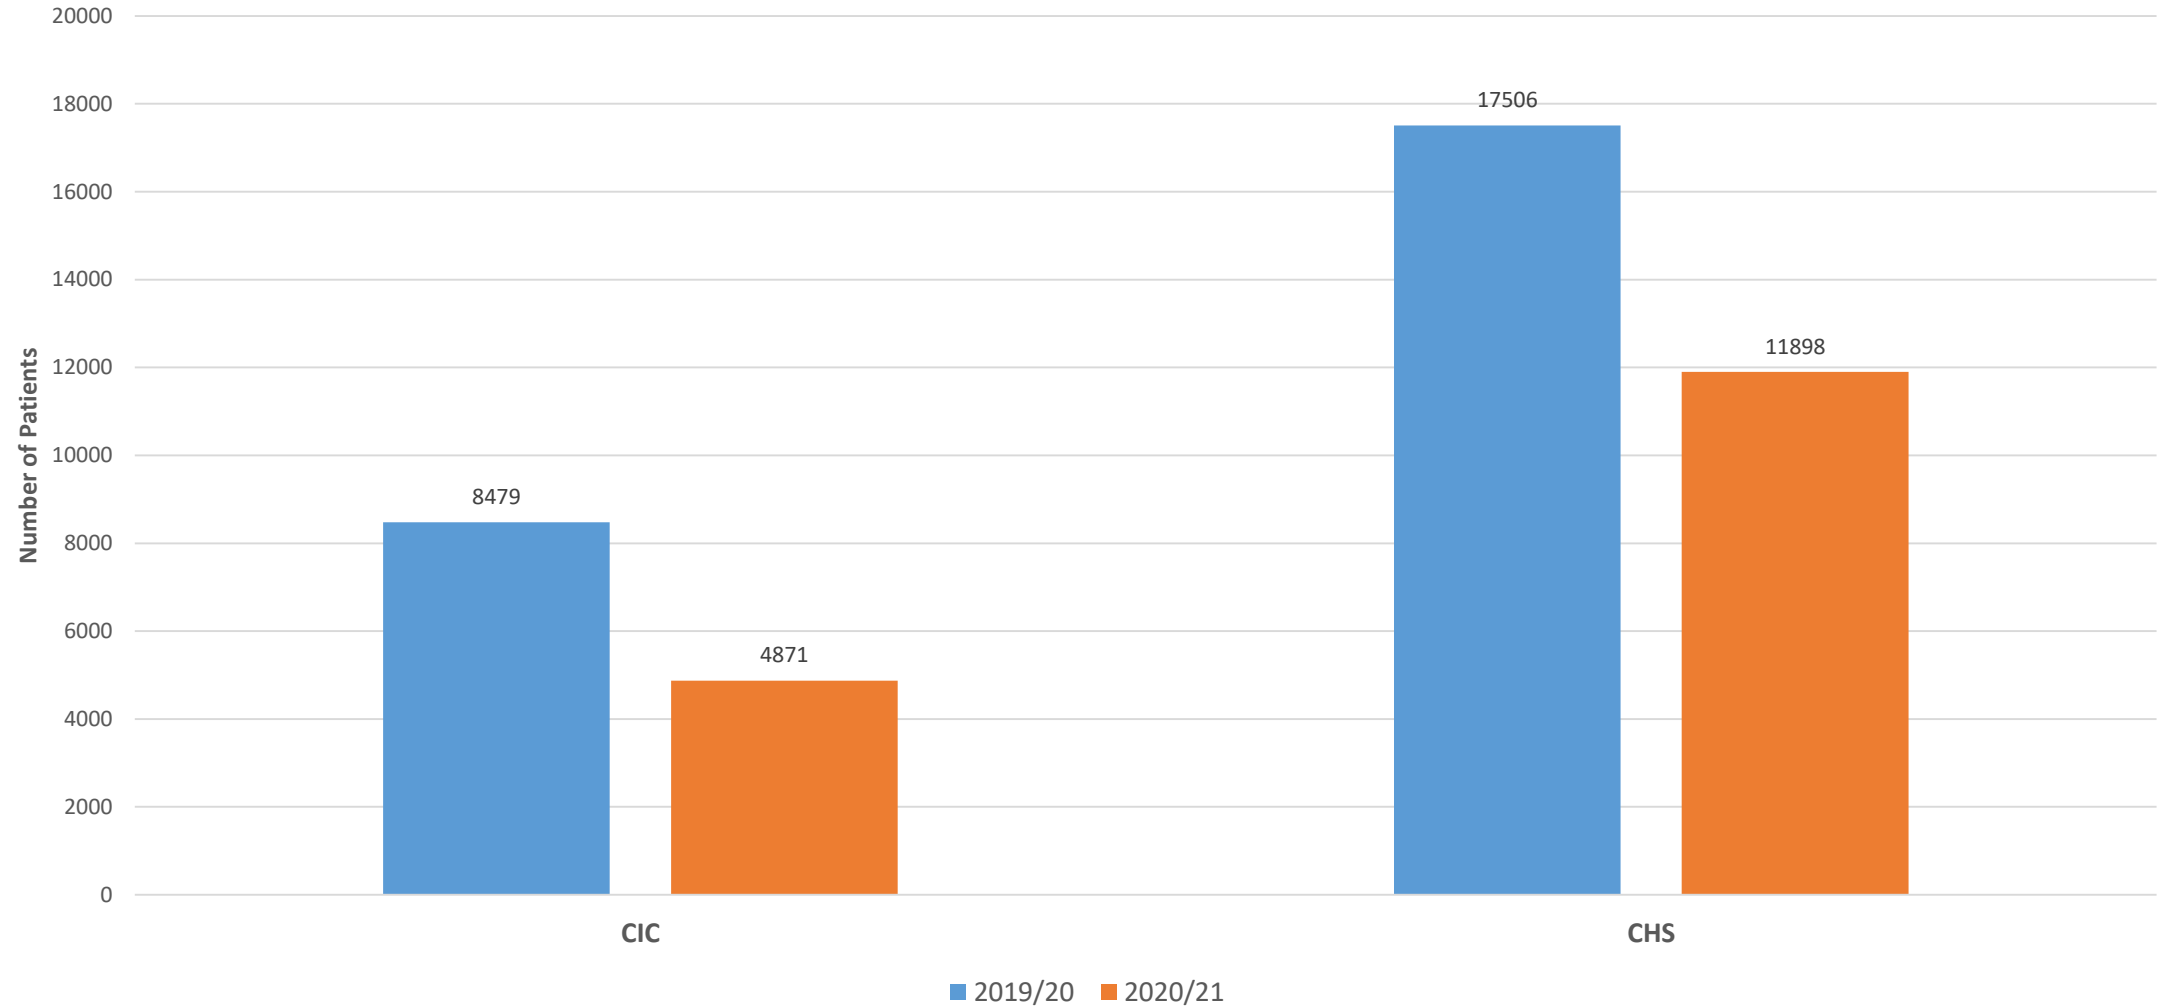

Average number of visits
April 2020 – July 2020 Q1

Total number of hospital inpatients

April-May 2019/20 – April-May 2020/19

Conclusion

- The COVID effect!
 - CCOTs being re-deployed into CC Units
 - Reduction in in-patient numbers
 - Challenges collecting data
- Not all CCOTs collect the 'essential' data fields e.g. Re-admissions
- ??? Increase in TEPs
- Continue to assimilate quarterly and present every 6 months

Please submit this valuable data – Thank you! 😊
